International Commission on Irrigation and Drainage

Call for Papers

International Workshop on
“The Water-Energy-Food-Nexus: Applications & Impact on Societies, Environment and Ecosystem”
03 September 2024: 08:45-10:30 hrs (Session-I) & 11:00-12:45 hrs (Session-II) TBC
Sydney, Australia

I. Background:

The world’s population is expected to grow from 8 billion today to at least 9.8 billion by the year 2050. The population growth, urbanization and industrialization are imposing rapidly growing demands and pressures on the water and energy resources and causing, in many cases, an imbalance between water supply and demand. This growing imbalance has led to shortages, competition, and other environmental pressures. Achieving food, water and energy security as well as improving the quality of life, while preserving the environment, will continue to pose major challenges to scientists, decision-makers and technicians in the next few decades. Irrigation globally consumes around 70% of freshwater resources. This water is becoming increasingly scarce. Irrigation requires energy. Therefore, improving water and energy use efficiency and productivity in agriculture practices will be valuable.

The interdependence of the water, food and energy is well known since early civilization. The present challenge is how to produce more crop per drop per kwatt energy per unit area of land. This is the essence of the new focus on the nexus. The WEF Nexus has benefit at local, regional, national and transboundary scales. Nexus application has also impacted Societies, Environment and Ecosystems. In addition, climate change has impact on the W-E-F Nexus. Attempts were made to quantify the Nexus by the integration of water, energy and food securities indices into a single Index. This index is crucial for improving the Water, Energy & Food Securites.

II. Objectives: This Workshop will bring together experts from all over the world to share information, experience, and views on how to implement the water-energy food nexus in agriculture. The focus will be on the examples of application of the Nexus at different scales, the impact of climate change on the W-E-F-Nexus and the impact of Nexus application on Societies, Environment and Ecosystem. The papers should show examples of application and must include the whole three elements of the Nexus: Water, Food and Energy.

III. Theme/Sub-themes:
The main theme of the International Workshop of Working Group is “The Water-Energy-Food-Nexus: Applications & Impact on Societies, Environment and Ecosystem”.
Sub-themes: (i) Approaches to calculate the WEF Nexus Index; (ii) Quantifying the WEF Nexus at field, regional and country scales; (iii) The spatial distribution of the WEF Nexus and the trade-offs to improve the WEF Nexus across different scales; (iv) Institutional and Governance issues in implementing the WEF Nexus (v) WEF Nexus application and benefit at transboundary scale; (vi) Quantifying the climate change impact on the WEF Nexus; and (vii) WEF Nexus impact on the Societies, Environment, and the Ecosystem.

Abstracts/papers are invited and encouraged from professionals, researchers, experts, practitioners, managers, and policy-makers on the State, Province or Local levels based on the mandate of the WG.

IV. SCHEDULE FOR SUBMISSION OF ABSTRACTS / FULL PAPERS

i. Submission of abstracts (max. 600 words) : 01 May 2024
ii. Notification of acceptance : 15 May 2024
iii. Submission of full papers (max. 10 pages of A-4 size) : 15 June 2024
iv. Notification of acceptance of full papers : 01 July 2024

The Workshop is being organized by ICID's Working Group on Water Food Energy Nexus (WG-WFE_N) during the 75th International Executive Council (IEC) Meeting and 9th Asian Regional Conference from 01-07 September 2024 at Sydney, Australia.

Contact-coordinates:

Workshop Chairman: Prof. Dr Ragab Ragab, President Hon. ICID and Chairman of the Working Group on “Water-Energy-Food Nexus” (E-mail: E-mail: ragab@icid.org) and Fellow at UK Centre for Ecology & Hydrology, UKCEH, UK.

Dr. K. Yella Reddy, Vice President Hon. ICID and Vice-Chair of the WG on Water Energy-Food Nexus” & Officer on Special Duty, Government of Andhra Pradesh, India (E-mail: kyreddy@icid.org).

Workshop Coordinator: Er. Balasaheb Anantrao Chivate, Director (Technical), International Commission on Irrigation and Drainage (ICID) (E-mail: icid@icid.org), New Delhi. India

Registration and travel information are available at http://irrigationconference2024.com.au

Name (Mr/Ms/Dr): ……………………………………………………………………………………………………………………………
Position: ……………………………………………………………………………………………………………………………………
Organization: ……………………………………………………………………………………………………………………………
………………………………………………………………………………………………………………………………………………
Full Address:
………………………………………………………………………………………………………………………………………………
………………………………………………………………………………………………………………………………………………
City: ………………………………………………………………………………………………………………………………………
Postal Code: …………………………………………………………………………………………………………………………………
Country: …………………………………………………………………………………………………………………………………
Tel.: ………………………………………………………………………………………………………………………………………
E-mail: …………………………………………………………………………………………………………………………………

I would like to present a paper [ ]
a poster [ ]

Entitled:
………………………………………………………………………………………………………………………………………………
………………………………………………………………………………………………………………………………………………
………………………………………………………………………………………………………………………………………………

Note: E-mail these details and a 600 word abstract (as a WORD file) as soon as possible and not later than 1st May 2024 to Er. B.A. Chivate at icid@icid.org ICID Central Office, with CC to VPH Dr. K. Yella Reddy at kvreddy@icid.org

Acceptance for presentation will be sent during July 2024.
